The Origins of Rollercoasters: From Ice Slides to Iron Giants

Early Beginnings and Historical Roots

The history of rollercoasters dates back centuries, with some of the earliest precursors believed to be ice slides in Russia during the 17th century. These slides were built on snow or ice surfaces, allowing riders to experience a thrilling descent. The concept evolved across Europe, especially in France and Russia, where wooden and stone structures were constructed to mimic the icy slopes.

By the 19th century, the advent of the industrial revolution allowed for the creation of more durable and elaborate rides.
