Cutting the Fabric: Step-by-Step Process

Preparing the Fabric

- Wash and iron fabric to pre-shrink and remove wrinkles.
- Lay fabric on a flat, clean surface.
- Use pattern weights or pins to secure the pattern pieces.

Pinning and Cutting

- Pin the pattern pieces carefully, ensuring they align correctly.
- Use sharp fabric scissors for smooth cuts.
- Cut slowly along the edges, maintaining even pressure.
- For curved edges like necklines and armholes, cut with small, precise snips.

Handling Fabric Layers

- If cutting multiple layers, ensure they are aligned and pinned securely.
- Use a rotary cutter for straight lines on multiple layers for efficiency.
- Mark notches and darts on fabric with fabric chalk for easier sewing.

Special Techniques for Anarkali Dress Cutting

Creating Flared Skirt Patterns

- Use the circle or panel pattern method to achieve the desired flare.
- Calculate the radius for the circle skirt based on waist measurement and flare degree.
- Cut multiple panels for a more dramatic flare, ensuring they are symmetrical.

Incorporating Embellishments and Embroidery Areas

- Leave extra fabric around embroidery zones during cutting.
- Use interfacing or lining inside heavily embroidered sections to maintain shape.

Adjusting Pattern for Custom Fit
