Sample Multiple Choice Questions and Explanations

Question 1: Informed Consent

Which of the following best describes the legal requirement for informed consent?

- A) The patient must be told all possible risks, regardless of their relevance.
- B) The patient must be provided with sufficient information to make an autonomous decision.
- C) The healthcare provider can proceed with treatment if the patient appears willing.
- D) Consent is not necessary if the treatment is life-saving.

Answer: B) The patient must be provided with sufficient information to make an autonomous

decision.

Explanation: Legally, informed consent requires that patients are given adequate information about the nature of the procedure, risks, benefits, and alternatives, enabling autonomous decision-making. Overloading patients with all possible risks (A) is unnecessary, and proceeding without consent (C, D) violates legal and ethical standards unless in emergencies.

Question 2: Negligence in Medical Practice
