The **Preliminary 12 Dressage Test** is a fundamental component of dressage competitions, serving as an essential stepping stone for riders and horses progressing through the levels. As one of the introductory tests in the dressage discipline, it provides an excellent platform for demonstrating basic riding skills, harmony, and the fundamental movements required for higher-level tests. Whether you're a beginner rider, a seasoned competitor, or an instructor guiding students through their early dressage journey, understanding the intricacies of the Preliminary 12 test is crucial for success.

In this article, we explore the structure of the Preliminary 12 Dressage Test, its objectives, key movements, scoring criteria, and tips to excel in this level. By the end, you'll have comprehensive insight into what the test entails and how to prepare effectively.

What Is the Preliminary 12 Dressage Test?

The Preliminary 12 Dressage Test is designed for riders competing at the introductory level, often in local or regional competitions. It emphasizes fundamental skills such as maintaining rhythm, straightness, and balance, alongside basic movements like walk, trot, and canter circles, transitions, and simple lateral movements.

This test serves as an excellent gauge of both rider and horse's communication and cooperation. It also helps build confidence and sound foundational skills, which are vital for progressing to higher dressage levels such as Novice, Elementary, and beyond.

Objectives of the Preliminary 12 Dressage Test

The primary goals of the Preliminary 12 test include:

- Demonstrating basic control and harmony between rider and horse.
- Executing fundamental dressage movements with correct geometry and rhythm.
- Exhibiting clarity in transitions between gaits and within movements.
- Developing confidence in maintaining straightness and balance.
- Introducing lateral movements and simple figures to enhance suppleness and responsiveness.

Achieving these objectives provides a solid foundation for progressing to more complex dressage tests and levels.

Structure and Key Movements in the Preliminary 12 Test

The Preliminary 12 dressage test typically lasts around 4 to 6 minutes and is performed on a standard 20x40 meter arena. While the specific movements may vary slightly depending on the governing body or competition rules, the core elements generally include the following:

1. Walk and Trot Transitions

- Transition from walk to trot and vice versa at designated points.
- Smooth, controlled transitions are vital.

2. Working Walk and Trot Circles

- Performing accurate circles (usually 10-15 meters in diameter).
- Maintaining bend and consistent rhythm.

3. Straightness and Basic Gaits

- Ensuring the horse moves straight along the arena and on circles.
- Achieving even tempo and impulsion.

4. Transitions within Gaits

- Downward transition from trot to walk.
- Upward transition from walk to trot.

5. Simple Lateral Movements

- Basic shoulder-in or leg-yield (if included).
- Promotes suppleness and responsiveness.

6. Halt and Salute

- Performing a proper halt at the designated marker.
- Saluting the judge correctly.

7. Final Straight Line and Finish

- Maintaining control and balance through the final movements.
- Finishing with a balanced halt.

Scoring and Judging Criteria

In dressage, each movement is scored on a scale from 0 to 10, with 10 being excellent execution and 0 indicating a poor or omitted movement. The total score reflects overall rider and horse performance, with specific criteria including:

- **Accuracy:** Performing the movements as prescribed, including correct figures and sequences.
- **Rhythm and Gaits:** Consistent tempo and correct gait execution.
- **Impulsion and Engagement:** The horse's willingness to move forward with energy and balance.
- **Straightness and Flexion:** Maintaining alignment and correct bend through circles and turns.
- **Transitions:** Smoothness and clarity between gaits and within movements.
- **Harmony and Connection:** The rider's aids being subtle and effective, allowing the horse to move freely.
- **Presentation:** Overall appearance, including rider's position, aids, and the horse's turnout.

A perfect score for the entire test is 200 points (20 movements x 10 points each), but scores above 60% are generally considered successful at this level.
