Question Why do I struggle with consistency in my golf swing? Inconsistent swing mechanics, improper grip, or lack of practice can lead to inconsistent shots, making it seem like you 'suck' at golf. **Answer** How does poor alignment affect my golf game? Misalignment causes your shots to go off target, reducing accuracy and distance, which can contribute to frustration and poor performance. Why do I often hit the ball fat or thin? Fat shots occur when you hit the ground before the ball, while thin shots happen when you hit the top of the ball. Both are often due to poor swing timing or incorrect weight transfer. How important is grip pressure in golf? Too tight a grip restricts wrist movement and reduces swing fluidity, while a grip that's too loose can lead to lack of control. Finding the right grip pressure improves shot accuracy. What causes me to slice or hook the ball? Swing path and clubface angle at impact are primary causes. An outside-in swing path tends to cause slices, while an inside-out path can lead to hooks. Why do I lose distance on my shots? Incorrect swing mechanics, poor tempo, and lack of strength or flexibility can all diminish your clubhead speed and distance. How does mental game affect my golf performance? Negative thoughts, frustration, and lack of focus can impair your swing and decision-making, leading to more mistakes on the course. Why do I struggle with bunker shots? Poor technique, such as hitting too deep or not opening the clubface, causes difficulty. Proper stance, club selection, and practice are key to mastering bunkers. What are common mistakes beginners make that hinder progress? Common mistakes include over-swinging, poor grip, inconsistent stance, and neglecting short game practice—all of which can slow improvement.
