The Academic Pressure and Its Ramifications

At the heart of Five Point Someone lies the depiction of the intense academic environment prevalent in Indian engineering colleges, specifically the Indian Institutes of Technology (IITs). The protagonist, Hari, along with his friends Ryan and Alok, are portrayed as bright yet rebellious students who grapple with the suffocating expectations imposed by their families, society, and the institution itself. Their struggles highlight the mental health issues, stress, and identity crises that

many Indian students experience but often hesitate to discuss openly.

Key Points:

- The obsession with grades (‘five point someone’ refers to scoring just above the passing mark) often leads to superficial learning.
- The lack of emphasis on practical knowledge or innovation stifles creativity.
- The societal emphasis on prestigious degrees creates immense pressure, sometimes leading to burnout or rebellion.

Rebellion Against the System

The novel portrays how the protagonists’ dissatisfaction with the rigid and authoritarian academic system manifests as rebellion. Their misadventures, including skipping classes, experimenting with unconventional ideas, and questioning authority, serve as an allegory for the broader youth discontent with societal norms.
