This style of Eskrima is distinguished by its focus on long-range combat, fluid movement, and close-quarters engagement, making it highly adaptable to various combat scenarios.

Historical Roots and Cultural Significance

Origins of the Long Stick Tradition in the Philippines

The use of sticks and bladed weapons in Filipino combat systems predates the arrival of Spanish colonizers, with evidence suggesting that early Filipinos employed simple yet effective weaponry, such as sticks, knives, and spears, in their defense against invaders and rival groups. Over centuries, these combat techniques evolved into complex martial arts, often passed down through generations within barangays (villages).

In Ilocano communities, the long stick became a symbol of both authority and practicality. It was used for farming, herding, and as a weapon for self-defense. The martial art of Kabaroan emerged from these everyday needs, transforming into a formalized system of combat and cultural preservation.

Influence of Spanish Colonization and Local Innovation

During the Spanish colonial period, Filipinos faced restrictions on their traditional weapons. As a result, many martial arts adapted, emphasizing unarmed or improvised weapon techniques. The long stick, with its accessibility and versatility, became a central focus in Ilocano martial practices.
