- Inventory Bantay: Overseeing stock, preventing theft, and ensuring proper storage of sensitive or expensive components.

This classification sometimes overlaps, especially in small or family-run shops, where one individual might wear multiple hats.

The Environment and Challenges Faced by Bantay ng Computer Shop

The Physical and Security Environment

Computer shops often contain valuable items such as high-end laptops, gaming rigs, processors, GPUs, and accessories. The bantay must be vigilant in environments that are susceptible to theft, especially in urban or densely populated areas. Common challenges include:
