Legal Framework Governing Dental Records Release

Privacy Laws and Regulations

Dental records are considered protected health information (PHI), and their handling is governed primarily by laws like the Health Insurance Portability and Accountability Act (HIPAA) in the U.S. or similar privacy regulations worldwide. These laws stipulate that:

- Patients have the right to access and obtain copies of their dental records.
- Dental practices must obtain written authorization before releasing records to third parties, except in specific circumstances such as court orders or law enforcement requests.
- The release must be performed in a manner that ensures confidentiality and security.

The Role of Authorization Forms

An authorization form acts as a legal document that:
