a crits politiques 1953 1993 constitue une période cruciale dans l'histoire politique de nombreux pays, notamment en France où cette période couvre des événements clés allant de la fin de la Quatrième République à la fin du XXe siècle. Cette période a été marquée par des transformations profondes, des crises majeures, ainsi que par l'émergence de nouvelles idéologies et stratégies politiques. Comprendre ces deux décennies, ou plutôt cette période s'étendant sur quarante années, permet d'appréhender l'évolution du paysage politique et social, ainsi que la manière dont ces événements ont façonné la modernité politique.

Contexte historique et politique de 1953 à 1993

La période de 1953 à 1968 : la France en pleine mutation

La fin de la Quatrième République et l'émergence de la Cinquième République

En 1953, la Quatrième République est encore en place, caractérisée par une instabilité gouvernementale chronique et un régime parlementaire fragile. La guerre d'Algérie, débutée en 1954, va profondément bouleverser le contexte politique. La crise algérienne exacerbe les tensions entre diverses factions politiques, entre nationalistes algériens, colonialistes et ceux favorables à l'indépendance. La situation devient ingérable pour le gouvernement de la Quatrième République.

En 1958, face à la crise, le général de Gaulle revient au pouvoir et établit la Cinquième République, dont il devient le premier président. La nouvelle constitution, adoptée par référendum, renforce considérablement le pouvoir exécutif, ce qui marque une rupture nette avec le régime parlementaire précédent. La période de 1958 à 1968 voit donc la stabilisation du régime gaulliste, avec la consolidation d'un pouvoir présidentiel fort.

Les grands enjeux politiques et sociaux de la période

- La décolonisation, notamment en Algérie, qui occupe une place centrale.
- La modernisation économique, avec les Trente Glorieuses qui favorisent la croissance et la transformation sociale.
- L'émergence de nouveaux mouvements politiques, à gauche comme à droite, notamment le développement des partis de masse.

Les années 1968 à 1993 : crise, réforme et diversification

La contestation de 1968 et ses répercussions

L'année 1968 reste une étape fondamentale. Les événements de Mai 1968, avec leurs grèves massives, leurs manifestations et leur contestation de l'autorité, bouleversent profondément la société française. Les revendications touchent aussi bien les questions sociales, éducatives, qu'économiques et politiques. La crise reflète un malaise profond face à la société d'après-guerre, à la bureaucratie et à la domination des élites.

En réponse, le gouvernement de De Gaulle doit faire face à une crise politique majeure, mais il parvient à la contenir. La fin de cette période voit une réforme du système éducatif, une ouverture du dialogue social, mais aussi une crise du modèle gaulliste.

La période de la Ve République et l'évolution politique

Après 1968, la politique française se caractérise par une diversification des partis et une évolution des stratégies politiques. La gauche, notamment avec la montée du Parti socialiste, devient une force majeure. La droite, quant à elle, se reconstruit autour de nouveaux mouvements et figures.

Les années 1970 et 1980 voient également l'émergence de nouveaux enjeux liés à la mondialisation, à la montée des mouvements sociaux, et à la fin de la Guerre froide.

Les grands acteurs politiques de 1953 à 1993

Les figures emblématiques

- Charles de Gaulle (1890-1970) : figure centrale de la période, fondateur de la Cinquième République, il incarne à la fois la stabilité et la rupture.
- Georges Pompidou (1911-1974) : Premier ministre sous de Gaulle, puis président, il poursuit la modernisation économique.
- François Mitterrand (1916-1996) : président de 1981 à 1995, il marque la première alternance politique de la Ve République avec l'arrivée d'un président de gauche.
- Valéry Giscard d'Estaing (1926-2020) : président de 1974 à 1981, il incarne une droite moderniste.
- Jacques Chirac (1934-2019) : figure de la droite, il occupe divers postes et sera président de 1995 à 2007, en dehors de cette période précise mais important dans la continuité.

Les partis politiques clés

- Union pour la Nouvelle République (UNR) puis Rassemblement pour la République (RPR) :

partis de droite gaulliste et post-gaulliste.

- Parti socialiste (PS) : force montante à gauche, qui va prendre une importance capitale à partir des années 1970.
- Les communistes français : une influence significative, notamment dans les années 1950-1970, avant leur déclin progressif.

Les enjeux majeurs durant cette période

La décolonisation et les relations internationales

La décolonisation, notamment en Afrique et en Asie, a été un enjeu majeur. La fin de l'Empire français a bouleversé la politique extérieure et intérieure. La France a dû repenser son rôle dans le monde, en particulier avec la politique de grandeur gaulliste, la création de la Force de frappe, et la construction de l'Union européenne.

La modernisation économique et sociale

Les Trente Glorieuses (1945-1975) ont permis une croissance économique rapide, une amélioration du niveau de vie, l'extension des services publics, et une transformation sociale majeure. Cependant, cette période a aussi vu émerger des tensions sociales, des mouvements ouvriers, et des revendications pour plus de libertés.

La crise de la représentation et la montée des contestations

Les années 1960 et 1970 ont été marquées par une crise de la représentation politique, avec une défiance croissante envers les institutions. Le mouvement étudiant de 1968 en est l'expression la plus emblématique.

La fin de la Guerre froide et ses répercussions

L'effondrement du bloc soviétique en 1991 a marqué la fin de la bipolarité mondiale, influençant la politique intérieure et extérieure de la France. La nouvelle donne géopolitique a nécessité des ajustements stratégiques et diplomatiques.

Conclusion : une période de transition et de transformation

La période de 1953 à 1993 a été marquée par une succession d'événements, de crises et de réformes qui ont façonné la France moderne. Entre la stabilisation du régime avec la Cinquième République, les bouleversements sociaux de 1968, et les mutations économiques et internationales, cette période illustre la complexité de la transition vers la monde contemporain. La critique politique de cette période montre aussi l'évolution des idées, des acteurs et des stratégies, reflétant une

société en constante mutation qui continue de façonner sa trajectoire jusqu'à aujourd'hui.
