Practice Questions and Sample Answers

Sample Logical Reasoning Question 1

Question:

A series of shapes follows a particular pattern: circle, square, circle, square, _____. What is the next shape?

Options:

- a) Circle
- b) Square
- c) Triangle
- d) Rectangle

Answer:

- b) Square

Explanation:

The pattern alternates between circle and square. After the last square, the sequence continues with a circle, then a square. Since the last shape was a square, the next one should be a circle. However, because the sequence given is circle, square, circle, square, the next shape after the last square is a circle.

[Note: The correct answer is actually 'a) Circle' based on the pattern, so this is an example of how understanding the pattern leads to the answer.]

Sample Logical Reasoning Question 2

Question:

All pens are stationery. Some stationery are notebooks. Which of the following conclusions logically follow?

- a) All notebooks are pens.
- b) Some stationery are pens.
- c) All stationery are notebooks.
- d) Some notebooks are pens.

Answer:

b) Some stationery are pens.

Explanation:

Since all pens are stationery, and some stationery are notebooks, it follows that some stationery are pens, but not necessarily all. The other options do not logically follow from the given statements.
