Design and Build Quality

Exterior and Aesthetic Features

The 1992 Mitsubishi Triton?s design epitomized the utilitarian ethos of early 90s trucks. It featured a

squared-off cab and bed, with minimal ornamentation. The front grille was simple yet functional, with the Mitsubishi logo prominently displayed. The headlights were rectangular, providing good illumination but reflecting the design standards of its time.

The frame was made of high-tensile steel, ensuring durability while maintaining a manageable weight balance.

The suspension system consisted of leaf springs in the rear and either coil or leaf springs in the front, depending on the variant. This setup contributed to load-carrying capacity and ride comfort, especially when the truck was fully loaded.
